3D-Bee™ **3D**

The 3D-Bee Diamond

The 3D-Bee™ Diamond features the Hornet Depth Engine™ which is an upgrade to the original Honey Bee Engine™ in previous 3D-Bee converters.

Users can adjust the settings to a high specificity of 3D depth, volume and pop-out. With our new 3D-Bee Diamond you can have “3D Your Way”. There simply isn’t anything comparable in the industry.

The 3D-Bee Diamond shares all other features as the 3D-Bee Platinum.

3D-Bee Technology

Our breakthrough technology brings viewers the highest quality, natural looking 3D video converted in realtime from 2D. Any 2D HD video (720p, 1080i or 1080p) can be converted to 3D. Just imagine the possibilities – all the programming on your existing cable and satellite channels, all your existing collection of DVDs and blu-ray discs, YouTube videos and internet TV like Netflix and Hulu, videos from your camcorder, video games, home movies and even still pictures can now be viewed in high quality 3D. There's no more need to subscribe to expensive 3D channels or buy expensive 3D blu-ray discs of your favorite movies when and if they become available. The 3D-Bee Diamond improves on the technology with the Hornet Depth Engine™ and extra controls for “3D Your Way”!

Features (for the Diamond)
